Contents of Volume 2

Volume 2 Number 1

Editorial

In situ hybridization in endocrine pathology **1**
Ricardo V. Lloyd

Review

Parathyroid hormone-like peptide **4**
Daniel J. Drucker

Original Articles

Immunohistochemical study of Crooke's hyaline change **12**
Yoshio Uei, Masaki Kanzaki, Toshio Ohta

Discordant secretion of calcitonin and chromogranin in the human medullary thyroid carcinoma cell line **16**
Toru Kameya, Kuniko Kadoya, Haruo Iguchi, Yoshifumi Abe, Katsutaro Shimaoka

Intermediate thyroid carcinoma in humans and ultimobranchial tumors in bulls: a comparative morphological and immunohistochemical study **24**
Otto Ljungberg, Per Olle Nilsson

Ultrastructural morphometry of normal adrenal cortex and of hyperplastic adrenals in Cushing's disease **40**
Wolfgang Saeger, Harald Gehrke, Bernadette Schubert, Jörg Caselitz

Ultrastructural morphometry of different adrenal adenoma types **49**
Wolfgang Saeger, Georg Saager, Bernadette Schubert, Jörg Caselitz

Case Report

Elevated adrenocorticotropic hormone and cortisol levels in a patient with medullary carcinoma of the thyroid containing ectopic immunoreactive corticotropin-releasing hormone and bombesin **56**
V. Popovic, Z. Milosevic, I. Doniach, D. Micic, M. Nesovic, M. Odavic, M. Petakov, A. Kendereski, M. Sumarac, D. Manojlovic, J. Micic, G.M. Besser

Volume 2 Number 2

Editorial

Clonality of endocrine tumors **61**
Vivien Herman, Shlomo Melmed

Review

Functioning and nonfunctioning adrenal medullary tumors **64**
Noriko Kimura

Original Articles

Regulation of estrogen receptor mRNA in normal and neoplastic rat pituitary tissues **74**
Ricardo V. Lloyd, Long Jin, Kristina Fields, Elzbieta Kulig

Hyalinizing trabecular adenoma: A misnomer for a peculiar tumor of the thyroid gland **83**
Clara Sambade, Kaarle Franssila, José Cameselle-Teijeiro, Jahn Nesland, Manuel Sobrinho-Simões

Histopathology, hormone products, and clinicopathological profile of endocrine tumors of the upper small intestine: A study of 44 cases **92**
Carlo Capella, Cristina Riva, Guido Rindi, Fausto Sessa, Luciana Usellini, Annamaria Chiaravalli, Luciano Carnevali, Enrico Solcia

Case Report

Pituitary corticotroph adenoma with Crooke's hyalinization **111**
Sebastiano Franscella, Charles-Abram Favrod-Coune, Gianpaolo Pizzolato, Sylvia L. Asa, Rolf Gaillard, Jean Berney, Jacques Philipe

Volume 2 Number 3

Editorials

Thyroid oncology: The end of the dogmas **117**
Manuel Sobrinho-Simões

Oncogenes and thyroid tumors: Scratching the surface **120**
Malcolm J. Low

Original Articles

Effect of treatment with octreotide on the morphology of growth hormone-secreting pituitary adenomas: Study of 24 cases **123**
Albert Beckers, Kalman Kovacs, Eva Horvath, Roger Abs, Michel Reznik, and Achille Stevenaert

Immunohistochemical localization of the insulinlike growth factor binding protein-1 in female reproductive tissues by monoclonal antibodies **132**
Eeva-Marja Rutanen, Elisa Gonzalez, Jonathen Said, and Glenn D. Braunstein

Adrenal and retroperitoneal mixed neuroendocrine-neural tumors **139**
Noriko Kimura, Yukio Miura, Kiyoshi Miura, Naohiko Takahashi, R. Yoshiyuki Osamura, Ikuko Nagatsu, and Hiroshi Nagura

Expression of chromogranin A protein and messenger RNA and tyrosine hydroxylase protein in paraffin-embedded sections of neuroendocrine neoplasms **148**
David M. Grossman, Long Jin, Kathleen P. Heidelberger, and Ricardo V. Lloyd

Immunohistochemical study of folliculo-stellate cells in pituitary lesions **155**
Hiroshi Nishioka, Josefina F. Llena, and Asao Hirano

Porcine diazepam-binding inhibitor is immunohistochemically colocalized with somatostatin in the D-cells of human and porcine gastrointestinal tract and in pancreatic islet cells **161**
Anders Höög, Elvi Sandberg, Suad Efendic, Claes-Göran Östensson, Lars Grimelius, and Sture Falkmer

Case Report

Electron-microscopical immunocytochemical study of a pancreatic islet amyloid polypeptidoma **169**
A. Lukinius, E. Wilander, M. Stridsberg, B. Eriksson, and K. Öberg

Volume 2 Number 4

Editorial

Cytogenesis of nonfunctioning pituitary adenomas **177**
Kalman Kovacs, Sylvia L. Asa, Eva Horvath

Review

Folliculostellate cells of the pituitary **180**
Fernando Marin, Lucia Stefaneanu, Kalman Kovacs

Original Articles

Folliculostellate cells in pituitary adenomas: Studies of hormonal profile and tumor vascularity **193**
Anne M. McNicol

In vivo labeling with ^{125}I-CRH of human ACTH-producing pituitary adenomas heterotransplanted to nude mice **200**
Ulrich J. Knappe, Dieter K. Lüdecke, Maximilian J.A. Puchner, Wolfgang Saeger, Hans-D. Herrmann

Human pituitary adenomas do not overexpress the *c-erbB*-2 oncoprotein **210**
M.R.B. Wetherall, I.P. Corbett, P. Ince, R.A. James, M. Daniels, P.E. Harris, P. Kendall-Taylor

Further immunohistochemical study of Crooke's hyaline change **214**
Yoshio Uei, Masaki Kanzaki, Tadashi Yabana

Ultrastructural morphometry of the rat pituitary intermediate zone after stimulation and suppression **220**
Wolfgang Saeger, Karl-Detlef John, Jörg Caselitz

Case Reports

Localized adiposity of the thyroid, clinically mimicking an adenoma **226**
Hiroshi Morizumi, Toshiaki Sano, Masaru Tsuyuguchi, Toshiko Yoshinari, Shigetoshi Morimoto

Silent mixed growth hormone cell-prolactin cell pituitary adenoma **230**
Shigeru Furuhata, Toru Kameya, Mitsuhiro Otani, Yosinori Shimamoto, Hideo Asada, Shigeo Toya
